Resume

Fullstack Developer specialized in technologies such as ReactJS, React-Native, Typescript, NodeJs, SQLite, and MongoDB. I have exceptional skills that allow me to deliver high-quality projects within deadlines and with great customer satisfaction alone and in a time. My ability to quickly learn new technologies and my strong user orientation enable me to provide creative and efficient solutions that meet the client's needs.

Professional experience

12/2022 -freelance fullstack developer

- **As a freelance web developer, I have worked on several projects for clients in different sectors and industries. With my skill in programming languages such as JavaScript, React-Native, Node.js, and databases like MongoDB, I was able to create customized and efficient solutions that met the needs of each client.**
- **Throughout this journey, I have honed my skills in working remotely and project management, which has allowed me to deliver projects within deadlines and within budget.**

Education

Technologist in Systems Analysis and Development - completion scheduled for 12/2023 at FACIMP WYDEN

Skills
